Solvability is now offering a complete **Smart Paper Time Card Solution** for customers who need to continue using paper time cards and are searching for ways to streamline the process, reduce administrative costs, and improve accuracy – all while complying with DCAA time keeping audit rules.

- We design and deploy smart paper time cards and pens
- Time cards replicate your current time card
- Integrates with your enterprise time keeping and accounting system
- Complies with DCAA audits

Solvability and iConnect have teamed to provide a complete end to end solution for replacing your paper time cards with a new, smart, intelligent time card and digital pen that eliminates costly and time consuming manual administration and fully integrates your labor time recording and tracking into your accounting system.

Solution capabilities include:

- Write labor hours in ink daily
- Sign paper time card, supervisor review and co-sign
- Full reporting and change audit trail
